Teaching Feedback from Students

University of St Andrews

- Teaching Assistant for Applied Statistical Modelling using GLMs (2025)
 - Prompt (paraphrased for clarity): If you wish, give any staff member (including postgraduate tutors/demonstrators) special mention.
 - Student response (redacted to focus on personal feedback): I would like to give special mention to the postgraduate tutors and demonstrators who supported the module... The additional support provided by the PhD student was also greatly appreciated, as it enhanced understanding and created a more engaging learning environment.
 - Student response: Two great instructors, David was very helpful.
 - Prompt (paraphrased for clarity): Identify aspects of the module you felt supported your learning.
 - Student response (redacted to focus on personal feedback): In general, the teaching method was effective... Additionally, working practically on the board and receiving support from a PhD student were valuable aspects of the learning experience
